

Welcome Home

BURNING NEST 2022
30TH MAY - 5TH JUNE

Welcome

It's time to go home! After two years of being estranged from our beloved Nest it is finally time where we can all gather on the glade again and welcome each other home in whatever way that means to you at a burn. Be it your spiritual home, your desired community home or just the place where you feel your supreme self in the comfort of your own body. Home.

As we've spent the best part of two years in houses, vans, caves and buildings, furnished with memories, tat and loving comforts. This year's theme aims to make that transition back into the glade a little softer. Maybe even blur the lines a little.

'Welcome Home' is the theme. Imagine a glade full of those comforts; lamps, rugs, cushions, picture frame walls, board games, candle sticks and chimneys. Whatever home means to you bring those comforts to the glade and let us invite each other in. Maybe there's something that kept you real warm these past two years that you're not ready to part with or would like to share with a stranger. Maybe it's a book you read that changed your outlook. Maybe it's a comfy toy so hugged it's holy. Maybe you've finally perfected that family recipe and want to have a dinner party by the lake with some old or new friends.

Whatever has kept you warm these past two years and feel comfortable to do so then by all means please bring. We want to see what home means to you, in every sense of the word. And what's a better welcome home then a massive welcome home party!

Close to the entrance gate we have a large flat field open to free camping. Just down the road and centrally located on site you will find an area of rolling green hills, aka "the glade", which serves as the focus of activity at Nest. Here you will discover Centre Camp, a community space for all to use and enjoy. Further down is a

to Nest

collection of wild and wonderful themed camps of all kinds (both returning and new) we lovingly call “theme cabins”, in respect of our humble origins on a small campground in Wales. On the other side of the glade you will find Medical, Welfare, and Security.

Just past the theme camps by the first lake is our effigy: The Nest & Yippee (part yurt, part teepee) . A sanctuary that Welcomes Home all baby birds. The Nest & Yippee will be burnt on Saturday night, a symbolic climax of celebration, after a build up of fire performances and merrymaking.

Beyond the glade and up the hill you can find the temple, a non-denominational space for quiet contemplation, reflection, and ceremony. All are welcome to use it, add to it, being respectful of its role as a sacred space. This year it is a co-created structure across the event where people come in the morning to add their own leaf. In the evening gentle lighting will transform our co-created temple into a space of visual tranquility with light based movement. On Sunday evening around dark O’Clock a silent procession will commence from the lawn to the Temple where we will cleanse our energies in the sacred burning of the Temple. You are invited to make the temple your own, by writing on it anything you want to release through fire, or by bringing any objects to lay in the central altar.

Many months of hard work have already gone into preparing Nest 2022, ready for you to join our village and add your own special contribution to this colourful mix of citizens. We share a space where people can express themselves and enjoy the expressions of others, all in mutual respect and consent. It’s going to be a special one this year and we can’t wait to see you there.

Much Love,
Nest

11 Principles of Nest

Self-expression

The freedom to be yourself

Nest provides a blank canvas - welcoming, supportive and ready for you and your creative energy. You have the freedom to be yourself. Become who you are.

Self-reliance

You are responsible for you, mentally and physically

From food, water, rest & warmth to emotional support & grounding - you need to take care of yourself. Give yourself what you need. Ask others for help when you need it.

No commerce

Forget about money – there's nothing to buy

We enjoy a respite from financial exchange. Instead, we engage in an economy that explores the value of gifting, cooperation and participation beyond monetary reward.

Leave a Better Trace

From dust to dust, we leave only footprints

We care for the environment and we take care of our home. We clean up after ourselves; we leave nothing behind; we leave no trace we were there.

Radical Inclusion

Everyone is welcome

We welcome everyone for their unique contribution. Include others as you want to be included: with respect, consideration and tolerance.

Gifting

Devotion to the act of giving

The value of a gift is unconditional, whether it be an act of kindness or a material object. Gifting freely does not oblige any return in kind.

Participation

Get involved – Nest is what we make it

The more you put in, the more you get out. This is not an event for sitting out on the sidelines. Jump in, break boundaries and contribute to the tapestry of this rich & supportive environment.

Civic Responsibility

Part of something larger

We recognise that our community forms part of a wider populace. We seek to engage with, benefit from and contribute to the mechanisms of civil society. We take back home what we find and create at Nest.

Communal Effort

Together we are stronger

We value cooperation and collaboration. A collection of self-reliant individuals, we work together to create a force far stronger than the sum of our parts

Education

Each one teach one

We celebrate and recognise the value of our collective knowledge, skills and experiences. We seek opportunities to share and build upon this fundamental pillar of our community.

Immediacy

Make now count

Be here now. Make now count. All this will soon be gone, so enjoy now. Experience, participate, be. This is all there is, and you are exactly where you need to be.

Theme Camps

Panravia

Welcome to Panravia, your home away from home. A cosy spot where you can put your feet up and relax with your fellow travelers. You are invited to join us to awaken all of your senses. From our daily tea service, to frequent cuddle puddles and workshops exploring conscious connection – we create a friendly space to chill and recharge.

Intergalaetic Häus of Mojo

You've travelled for what feels like, many light years. Isolated in space, restricted and unable to visit far away loved ones. You spot a bar, on a strange and primordial planet, and land in need of rest. As you approach it, you are overcome with a sense of familiarity. It appears to be no more than a shack. You see a traveller sauntering over to a taxi, they're singing at the top of their lungs as they are whipped away. What is this place? You smile and walk through the door. It might look murky, but there is a rack of home brewed cider, strange cocktails and other refreshments. It is well lit aside from the odd dark corner... The atmosphere is warm, relaxed and the bar person is grinning ear to ear. You step up to the bar, the sound of laughing, cheering, and music fills your ears. Another traveller seems to recognise you, embraces you and pushes a drink into your hand. Welcome home, traveller.

Camp Costume Camp

Camp Costume Camp will be bringing hundreds of costumes and a makeup station to set up a fashion hub in the lush green fields! Packed the wrong things for the entire marvel you are faced with at Nest? Come and see us and we'll find you something wonderfully unsuitable! Are you looking for inspiration and pieces for your fabulous walk over the grounds? Come and see us for combinations beyond your wildest fashion dreams. Sparkly and unique garments made of the finest fabrics that have all been preloved! Is your mood changing throughout the day and your outfit no longer represents how you feel inside? Come and see us and we'll transform you to align with your new vibe in no time!

Magic Shack

A family friendly space with daily workshops, to juice the mind, body and soul. Chill but vibey, with games, comfies, chats and more. Come make a dream catcher, get immersed by ecstatic dance or just get plain silly. We got you!

Essex in the Glade

Coffee & classics in the late mornings, accompanied by classical music. A shot after dark – coffees after midnight, accompanied by dance music. Other hot beverages will also be available. We hope our Amphibian themed area will be used during the days and in the evenings by fellow Nestlings looking for a space to do their thing in.

The Antiquarian Speak-Easy

An eclectic hangout zone based around interesting dialogue, word games and fascinating antiquities. Occasional theme parties too...

The Snug

Somewhere to feast your feet, gird your eyes and rest your loins after a long day/night/what is time, at The Snug we will hand you a burrito and make a blanket burrito of you.

Cooie

A small and chilled space for tea, biscuits and midnight soup!

The Hot Mess

Hot Mess is the place to play with fire. See flames dance in time to music, rake patterns in flaming sand or lie down and let yourself be mesmerised by the rolling curls and whorls of our upside-down fire. We'll also have a pile of marshmallows and toasting forks, plus hot chocolate for the ultimate campfire experience.

Camp Crumpet

Come to Crumpet for the banging tunes, also the... banging. Camp Crumpet will be playing excellent music and burning twinkly lights Wednesday to Sunday night. It's a great space for dancing, chilling and play. Nothing is compulsory, everything is permitted, just don't bother anyone else. During the day, we will be running workshops and performances, check out our notice board for the schedule.

BuidyMcBuildFace

Skill sharing and inclusion for anyone who wants to build things! BuidyMcBuildFace is for anyone, of any build ability who dreams of wielding power tools with confidence (almost wrote abandon, but safety third people!), have ambitions worthy of a desert, just love Build, or casually want to pick up a new skill here with some other fabulous humans.

Escape Box

Come and see if you can solve the puzzles of the Escape Box before the time runs out!

Psychedellyfish

Come one come all and jiggle and wiggle your gelatinous selves with the swarm! The Psychedellyfish returns home after 2 years adrift on the ocean currents. Expect funky tunes, much dancing and merriment, and our usual plethora of hippy-trap lighting. If you're lucky (and we have the sea dollars) we might even run a bar too. Available for daytime workshops.

The Temple of One Duck

A bearded drunkard propped heavily against the Mojo bar once told me... "Listen closely enough laddie, and the wind whispers a tale of a temple long since lost to the world of men. A shrine deep in the jungle built in the honour of the Great Duck, a being of unimaginable volume. Legends say this lost haven has the most immaculate vibes, the sweetest beats and the finest turbocider in Devon." I looked askance at the swaying man. "You mean to say One Duck are doing a hippy-trap chill space!?!?" The man gripped me, wide eyed and teeth exposed. "Thats exactly it laddie. The Lost Temple! The Temple of One Duck"

The Imaginarium

Roll up, Roll up! Prepare to enter The Imaginarium: a place for the mind to run wild and reach out deep into the Universe. An artistic, musical, recreational and spiritual kaleidoscope to transport you through the looking-glass. Gratified Ignorance or Self-fulfilled Enlightenment? The choice is yours for the taking.

Other Camps & Groups

The Point

The Point is the hub of our home, the beating heart - a space for all the Nest community to enjoy. This year you will find it up on higher ground to ensure we can enjoy our wonderful communal area without noise restrictions. Here you will find all manner of workshops and happenings so check the boards to see what's on. We have a variety of musical additions to the guide. This is also the spot to find out other Nest news or to announce news of your own. Impromptu workshops/performances are welcome! Check the guide and boards and slot yourself in. You are also warmly welcomed to attend our Community Assembly at The Point on Saturday at 2pm.

Our communal space is not limited to The Point - feel free to explore and engage in your surroundings. Hot tip: The Whisper Stage and the natural amphitheatre marked on the map are available for adhoc shenanigans.

Welfare Enough

Welfare Enough is a bridge between Rangers, First Aid and emergency services. We offer a safe, comfortable, sober space for when things get a bit too much to cope with on your own; or when your tent has blown away, flooded out or sunk in the mud; or just to take a breather and sit down with a cup of tea. All of these are welfare. Welfare Enough will be available from Monday 12.00 to Sunday 12.00 during the event, and will be located just beyond the theme camps. Scheduled training is 4pm Wednesday 1st June and 4pm Thursday 2nd June at The Welfare Tent.

Heroes (Nest's Rangers)

To keep Nest safe and fun for everybody, Heroes are active all hours, walking throughout the terrain to see what is happening. If an incident happens, Heroes can help Nestlings on the spot, or radio in assistance if needed. This is a fun shift to volunteer for, since you get to mingle with everyone and see all the activities going on. Heroes work in pairs, so you can sign up with a friend if you like. Prior experience not needed, training will be provided. Scheduled training is 11am Monday 30th, Tuesday 31st, Wednesday 1st at The Point.

Leave a Better Trace

LEAVE NO TRACE IS ONE OF THE CORE PRINCIPLES OF BURNING NEST, NOWHERE, BURNING MAN, AND EVERY BURN EVENT. ESSENTIALLY, BURNERS TAKE RESPONSIBILITY FOR THEIR ENVIRONMENTAL IMPACT.

Leave a Better Trace is a step beyond, and started life at London Decompression 2019. We believe that the burner community has the power to make a positive impact not only on the individuals who are part of it, but also on society at large. We want to honour the basic burner principle of leaving the environment as we found it, but why stop there when our community has such potential to leave a positive trace? Examples of LBT include planting trees in a place that has been desertified; creating art or facilities that can be used by the local inhabitants after you leave; awakening people to take further actions to protect and improve the environment or become activists.

This means our mission has expanded to include:

- Reducing our environmental impact.
- Educating the community on environment related issues.
- Empowering the community to adopt more environmentally friendly behaviour, both at burns and in daily life.

Rather than leaving a sea of beer cans, cigarette butts, half-eaten food, discarded packaging, grubby clothes, wellies, sleeping bags and abandoned tents, Burners leave only footprints. It is up to each of us to ensure the long-term survival of our event and its immediate (and larger) environment. We do this by carefully considering what to bring, how to get there, and how we behave on site.

LBT will be doing site resto during strike between 06th – 08th June. Fancy joining us on a MOOP sweep in the sunshine? Reach out to us while you are on site at the Welfare Tent to find out how and when you can help.

Let's leave a better trace!

HERE ARE SOME TOP TIPS FOR REDUCING YOUR IMPACT BEFORE, DURING AND AFTER NEST:

MAKE YOUR TRAVEL AND NEST EXPERIENCE AS SUSTAINABLE AS POSSIBLE

- Take public transport, ride-sharing, or cycling to and from the site. Consider your environmental impact while you're there and on the way home. How can you change your actions to lower your carbon costs, reduce waste, compost more, and encourage others to do the same?

AVOID PACKAGING

- Compostable containers are better; reusable containers are best. Rather than buying single-use plastic water bottles, consider collaborating with others to order water in reusable containers, or use hard-plastic, reusable water containers that you can fill up with tap water.
- You will be expected to take any excessive amounts of rubbish home with you.
- At the end of Nest, if you have unopened food left over, it can be donated to the Nestlings helping with strike and to local food banks.

MATTER OUT OF PLACE (MOOP)

- Anything that isn't in your tent or attached to you can be considered MOOP!
- Do a daily MOOP sweep of your tent area. If you are with a theme camp, do a line sweep of your camp with your camp-mates making sure you cover the whole area.
- Cigarette butts are the most common MOOP item! Buy or make a portable ashtray (a mint tin, for instance) to collect your cigarette butts and ashes. Never, ever drop butts.
- Bring bin bags. Ensure you pack black bin bags for trash and clear bags for recycling, and some way to get food waste to the compost zone. There are 2 separate skips on site, please make sure you are familiar with what is recyclable and what is not according to the site signage.
- We provide recycling, compost and regular bins - use them properly!!
- Never let MOOP hit the ground. Clean as you go. MOOP attracts more MOOP. When you see trash on the ground, pick it up and take it with you. Be the change you wish to see!
- On the final day of Nest, everyone shares the responsibility of sweeping the site for MOOP. Theme camps will be allotted an area on the MOOP map that is under their direct responsibility to return to its original state. In the free camping area, we are all jointly responsible to MOOP sweep it clean.

THE FORBIDDEN SPARKLES

- Do not bring: loose glitter, feather boas, or anything that can fall off your costume.

NO CUP, NO DRINK!

- Bring your own cup and bowl: disposable cups, plates and cutlery are one of the biggest sources of trash at festivals. Burners make sure they always have an easy-to-carry reusable cup with them to use anywhere, anytime. Be responsible for your cup and keep it clean.

KEEP IT CLEAN

- Grey water: when pouring any grey water on the ground, ensure that there is no organic solid waste (which goes to the compost) or chemicals. Dispose of it away from any paths, preferably using it to water the trees. You can look up online how to easily make a grey water filter with a sieve, some plastic containers and different layers of sand.
- Toiletries you use and that end up on the ground, need to be made of natural ingredients and fully biodegradable. If you are not sure that your soap/shampoo/toothpaste is biodegradable, do not use

What? Where? When? Guide

THIS GUIDE WILL HELP YOU NAVIGATE ACTIVITIES OCCURRING THROUGHOUT THE EVENT, INCLUDING MUSIC, WORKSHOPS AND PERFORMANCES

The nature of our community is such that much more will be happening than we could ever document, so be prepared to stumble upon all manner of magic and feel free to spontaneously create something wherever you feel called to on our beautiful new site.

Throughout our village you'll find Theme 'Cabins' – camps with spaces built and curated by community members for all to enjoy.

Theme Cabins will schedule their own programming, so stop by for the latest news. We've printed some of the highlights in this booklet for a tantalising taste of what you can expect. Feel free to wander and explore what's on offer.

Plenty of activities are announced on the day or have to change due to weather and other unforeseen events. Check theme cabin boards and visit Centre Camp for the latest announcements and schedule changes, or to make announcements of your own.

Ever notice that this isn't the burn you asked for? You had intentions, you wanted to get something out of it, but it's just not going the way you 'wanted' it to. We bring our lives into a burn, our wholes selves. These events are long enough that often we can't use them to escape what's going on for us. So rather than escape let us connect to what's happening in our inner worlds and really listen to what we need here and now. In this workshop you'll be guided through an IFS (Internal Family Systems) visualisation to build a greater dialogue with the different parts of yourself and build more harmony within yourself. IFS is a methodology that understands our psychology as a dynamic system of interacting parts. It's incredibly powerful and transformational work. WE CAN DO BETTER THAN LEAVING NO TRACE...

LEAVE A BETTER TRACE

🕒 2:00pm 🗨️ Discussion
📍 The Point

Leave No Trace is one of the core principles of Burning Man and every Burn event. Essentially, Burners take responsibility for their environmental impact. But why stop there when our community has such potential to leave a positive trace? We believe that the burner community has the power to make a positive impact not only on the individuals who are part of it, but also on society at large. So we are asking everyone to go beyond simply leaving no traces, and Leave a Better Trace. This principle was first introduced at London Decompression 2019.

Examples of LBT include planting trees in a place that has been desertified; creating art or facilities that can be used by the local inhabitants after you leave; awakening people to take further actions to protect and improve the environment or become activists. We invite you to this critical talk and discussion, to consider how we can. Reduce our environmental impact from the event and in default world. Educate the community on environment related issues. Empower the community to adopt more environmentally-friendly behaviour, both at burns and in daily life.
